Summary

At the age of 13, I embarked on my journey in software development, accumulating experiences in gaming, mobile, and professional web development since 2010. My quest for diverse experiences, fueled by exploring various technologies as a hobby, mirrors my passion for discovery. Specializing in web development, I am adept in technologies such as React, Vue, PHP, SQL, and AWS, with a brief stint in Java.

Experience

Software Developer

EyeCheckup - early diagnosis

Nov 2021 - Present (2 years 1 month)

I developed the Eyecheckup Admin & Support Panel and a Demo UI Web App using Amazon Web Services. I managed Frontend development, CI/CD, and utilized various AWS services like Route53, CloudFront, S3, CodePipeline, ELB, EC2, RDS, and VPC. I created a Clinical Research Consent Form App for 10,000+ patients, annotation tools for AI training, components for 'doctorsays' and 'NVFundus' using Vue.js, React.js, and PHP, respectively. Additionally, I contributed to Eyecheckup RestAPI, writing Java Spring Boot unit tests and adding a PDF report endpoint.

Software Developer

ZeplinX

Oct 2020 - Nov 2021 (1 year 2 months)

I led a team for 'Konyaaltı Esnafım' app and ZeplinKENT's Frontend/Admin Panel for 200+ municipalities. Used Vue.js, MySQL, and Google Cloud to boost performance. Created municipal career and city/county travel guide apps with Vue.js. Also built 'ZeplinWEB' admin panel using Vue.js and Google Cloud. Strengthened RestAPI services, gaining significant REST expertise.

Software Developer

Artovy Tasarım Ofisi

Jun 2019 - Oct 2020 (1 year 5 months)

I created plugins to calculate the total number of bricks needed for an architectural structure based on the requirements of a brick factory. I developed small code snippets that generate different solutions for various needs. Additionally, I built a QR menu application for restaurants, actively utilizing PHP and JavaScript throughout the process.
